The Challenge 1500 is a professional grade, self contained hot water high pressure washer. It has long life components in the pump and motor for reliability. The controls are easy to reach. The motor is 2 pole, continuous duty, air cooled with thermal cutout. It offers an auto-feed anti-scale tank with a 3.2 gallon detergent tank. The boiler has a treated 2 coils system with non-rusting stainless steel flue and external parts. The Challenge is easily moved on 12" rear wheels on a sturdy frame with a large handle. The Challenge offers a 4 level Safety Stop protection system.

Pressure Washers

Crank type high efficiency low noise 2 pole HP pump with a brass pump head. The tri-plex ceramic plunger pump is separated from the motor and can be replaced or repaired with standard tools. The pump is lubricated with normal SAE 20W 30 oil.

Maintenance free burner head. Treated coils. External components in stainless steel.

12 inch diameter wheels.

Painted steel chassis.

Casing in injection molded plastic.

The front wheel is fixed on the steel chassis.

Remote controlled Safety Stop (ST) shuts the machine down after three by-passes or definitively in the event of leaks in the hydraulic circuit.
