

LL 316

- Compact folding handle design makes for easy shipping and storage
- Ultra low profile allows for cleaning under difficult to reach areas like desks or in washrooms or on trains or buses
- With 40 pounds of pressure and 200 RPM brush speed, it can handle those tough cleaning jobs
- The handy solution tank makes the LL 316 a portable cleaning system
- With a weight of only 40 pounds, this unit is great for small contracts where its required to move from one job site to another
- Its compact size and maneuverability is also great in stairwells
