

# Revolution

### ***New and Unique***

Safety transformer for the 12-volt function of the electric. Steam/water switch on the spray gun handle.

### ***Cleans Deep Down***

Cleans and disinfects sanitary areas, catering equipment, tiles, radiators, ovens, windows, carpets, upholstery and much more with adjustable steam pressure up to 85 psi

### ***Environmentally Friendly***

The force of the hot high pressure steam loosens dirt and grease from surfaces as well as from scratches, joints and other hard to reach places, completely without the use of detergents.

### ***Hygienic***

Kills off germs, bacteria, mites, and bugs.

### ***Versatility***

There are fittings for different cleaning attachments, with the Revolution there is a steam plus hot water rinse.

### ***Safe***

Pressure tank made of stainless steel. Copper tubing able to withstand pressure up to 710 psi

You will quickly appreciate how light, simple and safe your REVOLUTION is to handle.

### **SAFETY FEATURES**

- Boiler pressure safety valve
- Pressure gauge
- Boiler thermostat
- Auto thermostat cut out
- Internal cut-off / float valve

### **STEAM SPECIFICATION**

Stainless steel boiler capacity (continuous filling)	.80 gallons
Water tank capacity	1.32 gallons
Chemical tank capacity	1.32 gallons
Heating time	9 minutes
Pressure in use (kinetic energy)	85 psi
Maximum temperature	329°F (nominal)
Maximum power	1500 W
Power requirement	110V—50/60 Hz

### **VACUUM SPECIFICATION**

Power requirement	110V—50/60 Hz
Maximum power	1200 W
Plastic bucket capacity	4 gallons
