

QUIET SELF-CONTAINED EXTRACTOR

Our Walk Behind Avenger Series Extractor runs at less than 60 dBA making the AV 12QX excellent for any 24 hour facility, especially the hospitality and healthcare industries. This quiet machine is constructed with rugged, rotationally molded polyethylene and features a 100 PSI diaphragm pump with bypass providing 1.1 gpm of flow. And its powerful 1.7 Hp stage vacuum motor provides 115" waterlift and 95 CFM of airflow. The upper and lower tanks detach into two separate units making this Avenger lightweight and easy to transport.

The variable flow rate, coupled with adjustable vacuum shoe and brush pressure, allow it to be used for both interim maintenance and restorative cleaning. The efficient forward motion of the AV 12QX allows upwards of 2000 sq.ft./hour to be cleaned - twice the rate of pull back self-contained units.

Other key features include its easy access removable spray bar with twist off jets and push forward design. The spring loaded, pivoting vacuum shoe ensures consistent pressure and consistent pick up, even on turns, while notching improves airflow for reduced drying time. The vacuum shoe has a quick release for fitting the optional hard floor squeegee.

NACECARE SOLUTIONS

AV 12QX

*Optional hard floor squeegee for model AV 12QX

Simply remove the carpet shoe, fit the squeegee attachment and lower the brush housing to the lowest position to enable cleaning of your hard floor surfaces.

MODEL

AV 12QX

AV 12QX

VACUUM MOTOR	1,250 W, 1.7 Hp, 3 stage
AIRFLOW	95 cfm
WATERLIFT	115"
BRUSH MOTOR	100 W, 0.13 Hp
BRUSH SPEED	1,000 rpm
CLEANING WIDTH	20"
PUMP TYPE	diaphragm with bypass
WEIGHT	121 lbs.
POWER CORD	50'

PUMP POWER	100 W
PUMP PRESSURE	100 psi
PUMP FLOW	0 - 1.1 gpm
CAPACITY - SOLUTION	12 gal.
CAPACITY - RECOVERY	12 gal.
