

Cosmos

With four boilers supplying about 120 lbs. of super-heated steam per hour at 145 PSI this is the supreme industrial cleaner.

The Cosmos achieves the highest level of hygiene in the manufacturing environment and is particularly well suited to static operation in conjunction with a belt cleaner to ensure the highest levels of hygiene.

Available as 4 wire or 5 wire version. (5 wire version only), chemical facility, optional continuous water supply facility and belt cleaning facility.

Supplied with a hose and steam gun.

Technical Specifications

- Electrical Supply — 480V 3-Phase Current
- Current—44 Amp nominal
- Wattage—36000 Watt
- Water Tank — 6.6 gallon
- Stainless Steel Boilers — 4 x 2 gallons
- Steam Pressure in use — 145 PSI
- Steam Temperature — 356 °F
- Heating up Time — approximately 9 minutes
- Operating Time — Continuous
- Assembled Size (L x W x H) — 43.3 x 31.5 x 43.3 inch
- Weight — approximately 198lbs
- Cable Length — 13.1 feet
- Housing Cover — Stainless steel
- Electro Valve — For constant pressure
- Electric Cables — Silicon covered, flame proof
- Tubing — Copper
- Safety Thermostat — Temperature limit 383°F
- Electrical Switches — Water spray proofed
- IP Rating—IP x 4
