

DIRECTIONS FOR USE

Dry mop floor with a treated dust mop to remove all loose soil.

MOP APPLICATION: In mop bucket equipped with wringer, dilute 2 - 3 ounces of EXCEL per gallon of warm water. Immerse mop into solution and wring out about one-half to two thirds of cleaner. Mop should not have water dripping off of it, but feel damp to the touch. Clean the floor using a gentle side to side motion, be certain to cover all areas of the floor. **NO RINSING REQUIRED.**

Heavier dirt accumulations of dried-on liquid spills may require a vigorous scrubbing action for complete removal. Floor with heavy soiling may require a stronger cleaning solution of EXCEL.

AUTOSCRUBBER APPLICATION: Dilute 1 - 2 ounces of EXCEL per gallon of warm water. Clean floor with a red pad, being certain to cover all areas of the floor. **NO RINSING REQUIRED.**

Heavier dirt accumulations of dried-on liquid spills may require a vigorous scrubbing action for complete removal. Floor with heavy soiling may require a stronger cleaning solution of EXCEL.

EXCEL

NON-ALKALINE FLOOR
CLEANER CONCENTRATE

CLEANS WITHOUT
DULLING FINISH

THE ULTIMATE IN CLEANING
VERSATILITY - WORKS WELL WITH
A MOP OR IN AN AUTOSCRUBBER

CAUTION

May irritate eyes. Do not take internally. See side panel for additional precautionary statements and first aid instructions.

PROFESSIONAL SECRETS TO EFFECTIVE FLOOR CARE:

- Floors should be damp mopped regularly - accumulated dust and dirt cause unsightly scratches or abrasion that will significantly reduce finish durability and lead to frequent stripping and recoating.
- Floors should always be dry mopped before damp mopping. Removal of loose soil extends the life of cleaning solution significantly reducing chemical usage.
- Always pick up spills promptly. Dried-on liquids can be very sticky and require extra effort to remove. A little effort at the time of the spill will save a considerable amount of time during the damp mopping process.
- Regular use of walk-off mats at all entrances will catch damaging grit - significantly extending the life of your floor finishes.

CAUTION

May irritate eyes. Do not take internally. Avoid contact with eyes. Prolonged or repeated contact with skin may cause irritation. Use with adequate ventilation. If in eyes, flush with cool water for at least 15 minutes, if irritation persists, obtain medical assistance. If swallowed, contact physician or poison control center immediately. Do not induce vomiting. If on skin, wash thoroughly with soap and water.
