Planet Optimum

IPC Eagle

Planet Optimum

Planet Optimum is designed for working in areas where large amounts of fine dust need to be controlled. This system utilizes an innovative system for cleaning the filter. With an internal cyclone shielding the large anti-static pleated filter and the air reversal device for back-flushing the filter, the operator is ensured of long run times.

Entire machine is constructed of stainless steel for years of durability. The collection bin releases with the just the lift of the handle, the casters make emptying the bin easy, an optional vacuum equalizer kit allows the use of a standard plastic garbage bag to make clean up even easier. The Planet Optimum can be ordered in either 110V or 220V.

Voltage	Power	Waterlift	Airflow	Filter Surface	Capacity
110V 60Hz	2400 watt	91"	295 cfm	26 sq. ft.	19 gal
220V 50/60 Hz	3600 watt	91"	300 cfm	26 sq. ft.	19 gal
