

DP 340

- Can clean virtually any floor surface
- Very effective on grouted tile and rubberized floors
- Also cleans carpets, hardwood, profiled ceramics
- If the floor is uneven use the Duplex
- 2 counter-rotating brushes that scrub the surface with aggressive action
- Twin conveyors lift the dirt-filled solution from the brushes to a central recovery tank or you can choose to double scrub the area picking up the water later
- Brushes and drive unit are offset, so the brushes work right up to the edge of the machine and into difficult corners
- Brush options include 2 grades of black brushes for regular or aggressive scrubbing , grey is the standard all purpose brush and yellow is for sensitive carpet areas
- Excellent as a replacement for bonnet cleaning or interim cleaning
- Our industries best restoration machine when used in conjunction with hot water extraction

<u>MACHINE TECHNICAL SPECIFICATIONS</u>			
<u>Chasis / Body</u>		<u>Productivity</u>	
Tank Construction:	ABS	Soln Tank Capacity	2 x 1.1
Frame: Construction	Stainless Steel	Recovery Tank Capacity:	0.75
Product Height:		Square Feet Cleaned	NA
Product Length:		Power Cord	35'
Product Width:	11"		
Weight	84 lbs.		
<u>Scrubbing and Transport System</u>		<u>Warranty *</u>	
Cleaning Width	11"	Body	10
Brush Width	11"	Frame	5
Brush Motor Power	1000 W, 1.3 Hp	Motors and Electrical Components	1
Brush RPM:	780	Labour	1
Brush Pressure	57 lbs.	* See NaceCare warranty document for details
