

Genius 1050E

44" Rider Vacuum Sweeper

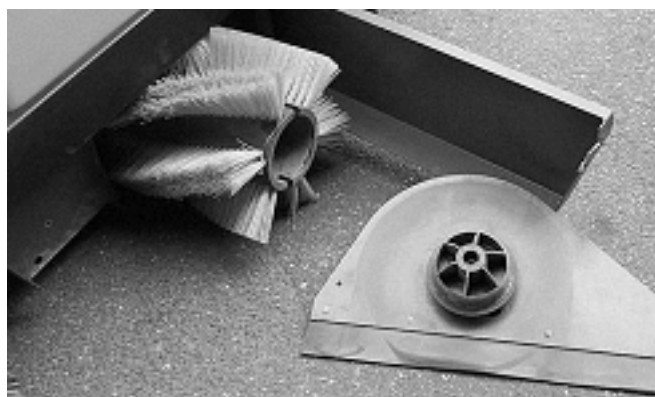

- 44" sweeping path
- Fits through a 32" door
- Ideal for carpet or hard surface floors
- 4 hour run time
- **Genius Technology:** With a push of a button the Genius automatically adjusts the speed, broom pressure, and filter shaking frequency.
- Three programmable settings

The Genius 1050 is the perfect size when high productivity is needed but where the maximum in maneuverability and versatility are needed as well. Perfect for warehouses with small aisles or congested space. It is the ultimate high productivity tool for large area carpet vacuuming. The Genius technology allows it to go from hard floors to carpets automatically.

Over-throw sweeping system

No tools required for brush and filter replacement
