

SPOTTING EXTRACTORS

The GVE 370, with its powerful 1.3 Hp vacuum motor and 2 year warranty, is ideal for spotting, upholstery cleaning and vehicle detailing. With 100" waterlift, 95 CFM of airflow and a 30 PSI pump, George provides excellent water recovery and won't overwet fabrics. A ball-float wet shut-off assembly ensures water does not reach the motor. The 1.6 gallon recovery tank comes with a handy carrying handle for dumping.

The AV4X/AVB4X are lightweight and easy to transport. Efficiently designed with their adjustable handle height, twist grip solution control, and a 60 PSI pump with quick release spray jet. Both have rugged, two-piece, rotationally molded polyethelene tanks that are designed such that the upper and lower tanks detach into two separate units. The 1.3 Hp vacuum motor, providing 100" waterlift and 106 CFM of airflow, makes for excellent water recovery and the squeegee attachment on the vacuum shoe allows for hard floor cleaning.

Additionally, the AVB 4X is fitted with a heavy duty cylindrical 600 RPM brush for agitation and superior cleaning results.
