

Wet / Dry Vacuums

The WV 800 has a polypropelene tank for maximum durability and 4 casters for ease of use and mobility.

It features a 1.6 hp bypass motor with a 2 year warranty and provides 100" of lift plus 95 CFM of airflow which means excellent dry soil and water recovery.

Our unique ball float wet shut-off assembly rotates continuously, staying clean and ensuring that water does not reach the motor. The drain hose makes emptying the water a snap.

Excellent 0.5 micron filtration results in over 99% efficiency for improved indoor air quality and can be used with or without a bag.

Model	WV 800
Motor	1,200W/1.6 hp
Airflow	95 cfm
Waterlift	100 in.
Capacity	11 gal.
Filtration	0.5 micron
Weight	34 lbs.
Power Cord	42 ft.
Sound Level	61 dB(A)
Tank Construction	polypropylene
